

RAINBOW

Music by Mauro Becattini & Stefano Cheli – Lyrics by Mauro Becattini

To the teachers and the children of the “Orange Room”

(child 1)

We should just get
A lot of pretty brushes
Then temperas paper and water
This is the way
To paint a lovely rainbow
And hang it
right there on the white wall..

No no no

**The rainbow's coming from your heart
When you start
To bring your colour to the world
Boys and girls
Bound by love and by compassion
You'll make a silent revolution
You'll show a new way to everyone!**

No no no ...

(child 2)

Let's go and find
stripes of cheerful colors
Made out of wool and of cotton
Needle and wire
to sew up them together
Here is the rainbow
Just get it, you can play now...

No no no ...

(child 3)

We should go for
A walk out in the country
Walking through meadows and forests
We could pick up
branches leaves and flowers
The colors would pop up
To shape a funny rainbow

No no no ...
